

NumBugz[®] Rules

Pairz

Pairz is a quick memory game

Aim of the game: To find matching pairs of Bugz

Players: For two or more players

Starting the game: Remove the PLYT Bugz and place the rest, **Bugz face up**, on the table – you can play with a single set of Bugz or several sets. All the Bugz are then randomly mixed and moved around so that no player knows where the numbers are. The youngest player starts the game by flipping over 2 Bugz. If they are the same number from the same Bugz set, they keep the pair of Bugz in front of them. They continue flipping Bugz but if they don't find a pair, the Bugz are flipped back over and the next player (clockwise) takes a turn.

Winning the game: When all the pairs have been found, the player with the most pairs wins the game
